

Klever M/T KR29

The Kenda Klever M/T is an excellent choice for off-road enthusiasts or individuals that require a high traction tire for their work environment. The durable rubber compound and unique self-cleaning lugs provide maximum traction to maximize performance in the harshest conditions of professional off-road racing as well as the most demanding work environments. Whether it's on the short-course or the work site, the Kenda Klever MT is built to perform.
